

PURE STORAGE PARTNER PROGRAM

Wednesday, August 8, 2018

1:02 PM

Since our inception, Pure Storage has been one of our most valued and strategic partners as a data-driven organisation leveraging next-generation technology, to offer customers simplified storage operations and efficiencies through SSD/NVMe/Data Reduction and overall achievements for business demands and growth. As one of the pioneers, not only from a technology perspective through their “All-Flash” strategy, Pure Storage has also introduced a paradigm shift in the acquisition, deployment and management of customer’s data storage through its Evergreen Storage programs.

As a result of a successful collaboration with Pure Storage over the past five years, Data Sciences Corporation has been acknowledged as their top-tier Elite Partner. With this level of partnership, Data Sciences Corporation further extends its synergy with Pure Storage in delivering next generation storage solutions to our valued customers within the EMEA Market.

The program itself provides partners with new benefits, incentives, certification and support to build a Pure Storage practice to assist customers achieve an intelligent data advantage within their environments.

This new status enables us to provide our customers with:

- **Trust** – Providing a transparent bridge between our suppliers and our customers.
- To allow our customers to gain access to the latest disruptive technology and **Innovation**
- **Differentiation** by gaining access into and offering our customers the most strategic product offerings and **Opportunities**.
- To show our customers a higher, demonstrable customer **Value-Add; ROI and to eliminate disruptive upgrades**.

We are humbled by this acknowledgement and thank Pure Storage for their support and dedication over the years, but more importantly, with our customers.
